

This file is about the upgrade notice of the **GP501Z ONU**.

First you should **log in the ONU WEB** ,view the WEB information to upgrade the relevant version.
Will tell which information should be noticed as below:

When you see the **WEB is green as the picture**.Please use **UPGRADE_V6.0_GREEN.bin**
After upgrade it will reboot. When reboot finish, please press the “reset” button keeping about 10 second.

If you can see the **WEB is blue and the hardware version is V6.0**
Please use **UPGRADE_V6.0_BLUE.bin**
After upgrade it will reboot. When reboot finish, please press the “reset” button keeping about 10 second.

```
#####
```

The screenshot shows a web interface for a network device. At the top, there is a navigation menu with tabs for Status, Network, Security, Application, Administration, and Help. Below the menu is a sidebar with a tree view containing 'Device Information', 'Network Interface', and 'User Interface'. The 'Device Information' section is expanded, showing a table of device details. To the right of the table are three buttons: '中文', 'Help', and 'Logout'.
